

Mounting systems for solar technology

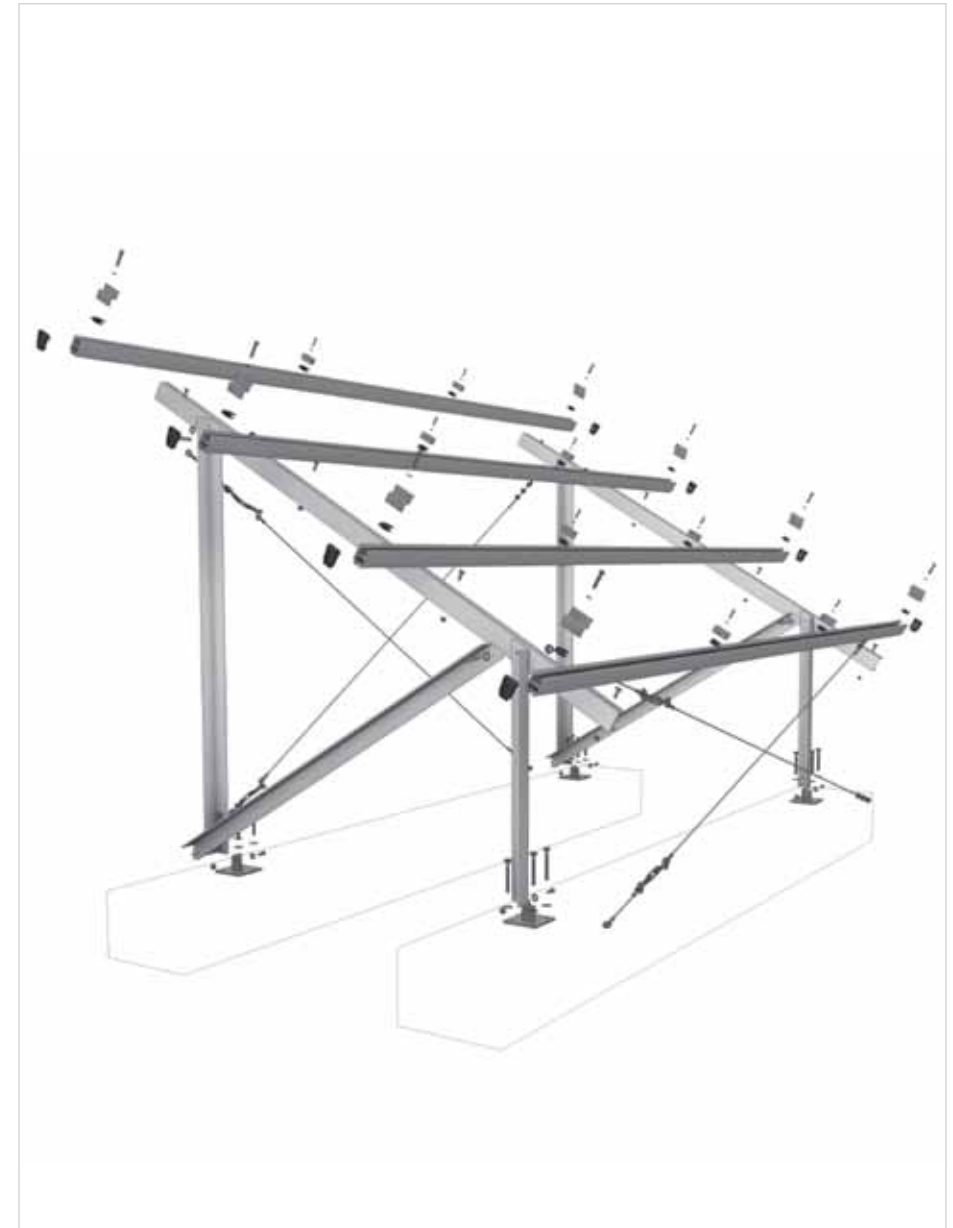

K2 SYSTEMS
GROUND MOUNTED SYSTEM
N-RACK SYSTEM MONO

N-RACK SYSTEM MONO

- K2 N Rack Mono system for concrete foundations
- Installation-friendly due to perfectly coordinated components and system kit (KIT)
- Optimised for K2 SolidRail Medium and Alpin
- Statically calculated for different European countries
- Very attractive price-performance ratio

Technical data

Field of application	Ground mounted
Type of soil	Almost all soil classes
PV modules	Suitable for all standard module types
Module orientation	2 x horizontal / 3 x vertical
Material	Aluminium (EN AW-6063 T66), galvanized steel
Connecting elements	Stainless steel screws A2-70
Weight / m ² module surface	-
Static principles	Calculation principles in accordance with Eurocode 9 - dimensioning and design of aluminium frames; load assumption in accordance with DIN 1055/ Eurocode 1
Span width	1,4 - 3 Meter
System components	Rack, Foot L Ancor Plate, Self-tapping Screw, mid and end clamp sets, Wind Brace, M K2
